THE CASE STATED—The advocates of the suspension of the coinage of the silver dollar are not likely to forward their cause by misrepresentation. The following facts cannot be ignored: First, that except during the short period of surreptitious demonstration, it has always been our unit of measurement; second, that gold dollars were not known previous to the discovery of gold in California; third, that our money is the hundredth part of a dollar; fourth, that instead of the dollar being worth only 25 cents, it is worth 100 cents; fifth, that five such dollars will now purchase a wonderful bargain in trousers, whether ready-made or made to measure, at Henning's, No. 419 Seventh street. Some of the latter have been reduced from \$18. Clearing out.

A WARNING TO MOTHERS—An old physician writes to a Cincinnati medical journal, that in view of the fact that people live to a distance from cities are frequently obliged to resort to cough mixtures already put up for use, they should provide themselves with only such remedies as are known to be free from opiates, poisons, and narcotics. He recommends Dr. Williams' Cough Cure, which tests by various boards of health proved to be purely vegetable as well as prompt, effective, and harmless.

Verdict Against the District.

The jury in the circuit court yesterday gave Paul Bonaveros a verdict against the District of Columbia for \$100. It seems that Bonaveros was living in a house on the lot now occupied by the Twelfth street station house. After the District purchased the property he was notified to vacate, and refusing to do so, the contractor for building the station house commenced pulling the dwelling down over his head. He sued the District for \$5,000 damages and obtained a verdict for the amount stated.

FIRE AT THE ALMSHOUSE.

Conflagration Among the Inmates, but the Flames Extinguished with but Slight Damage.

Shortly after supper had been served to the inmates of the Washington almshouse yesterday evening one of them smelled smoke. A search for the cause was made and flames were discovered between the ceiling of the third floor and the roof of the main building, which was formerly used as a workhouse prison. An alarm was turned in from box 507, and all of the inmates and employees were set at work to extinguish the flames. The fire had gained considerable headway, but the men commenced at the hand pumps and by the time the fire department had arrived the flames had been put out. The fire was caused by sparks from a chimney blowing in through a skylight and lodging in the rafters. It was very fortunate that the fire was discovered as soon as it was, for the wind was blowing still, and the consequences might have been fatal. The inmates of the almshouse and adjoining government buildings were very much frightened, and there was great excitement for a time. The estimated loss was about \$100.
